Hi  
Re: Post# 97666, \$635,869.50  
After review of this claim, portion of this is not valid -- the portion for the KDL46S4100 for \$158,504.50 is not valid -- records show there were no purchases of this model from 11/10 - 12/2; therefore, not entitled to this part of claim.  
Can you review and resubmit claim - at which time we should be able to process the other model on this claim.  
Pls advise.  
thx
